

Forum on Sukuk for Infrastructure Development

The objective of this forum is to address practical and operational issues related to Sukuk, including evaluating the legal framework, identifying appropriate assets, selecting and structuring appropriate contracts, and selecting underwriting financial institutions.

IRTI is organizing the forum in partnership with FPDC, IFSD, Legal Department, Treasury Department, and the Indonesian Ministry of Finance. The forum will help policymakers, regulators, potential issuers, financial institutions and other stakeholders better appreciate the issues and challenges associated with issuing Sukuk.
